

AMENDMENTS

In the Specification

On Page 15, between lines 10 and 11, please insert the following paragraph:

A' The coating compositions of the invention thus comprise one or more organic resins comprising functional groups reactive toward alkoxyalkyl groups or alkylol groups, and a crosslinker composition. The crosslinker composition contains at least one functionalized crosslinker. The functionalized crosslinker contains an amino resin core and, as substituents on the core, one or more olefin functional groups, at least one silicon-containing group, and at least one group selected from the group consisting of alkoxyalkyl, alkylol, and mixtures thereof. In a preferred embodiment, the crosslinker composition further contains a second crosslinker different from the functionalized crosslinker and containing a plurality of functional groups reactive toward at least some of the functional groups on the one or more organic resins.

In The Claims

Please amend claims 10, 11, 12, 15, 16, 17 and 20. A clean version is given below and a marked-up version showing the changes is attached.

A2 1. ~~10.~~ (AMENDEND) A crosslinker for organic coatings, comprising:

an amino resin core; and

as substituents on the amino resin core --

one or more olefin functional groups;

at least one silicon-containing group; and

at least one group selected from the group consisting of
